The NSWA is pleased to announce its newest publication: *Atlas of the North Saskatchewan River Watershed*. The content has been gathered from a number of sources, including technical studies prepared by the NSWA. The Atlas is intended to provide a broad overview of the watershed, its natural attributes and the nature of human activities affecting it. We hope the Atlas will increase public awareness about the watershed and the need to manage it carefully to protect water supplies for future generations.

The Atlas is intended as an educational product for watershed residents as well as a fundraiser for the NSWA. Copies are available for \$35 each (see below).

Order Form

Yes! I would like _____ copy(s) of the NSRW Atlas

Number of copies: _____

Name: _____

x \$35/copy = _____

Address: _____

+ Shipping= _____
