

RIVER TIME VORTEX EXTRAVAGANZA!

A Watershed Time Travel Story

About the Authors:

The 2024 Youth Water Council features a group of 9 passionate and driven high school students collaborating towards improved environmental health in the North Saskatchewan River watershed. With the help of NSWA, the Youth Water Council put their heads together to choose a project that spoke to them. The 'River Time Vortex Extravaganza!' story is the product of months of learning, discovery, deliberation, and project planning. The council hopes this comic will help readers feel a greater connection to the watershed and all it does for us.

Scan to see an online version of this comic book and discover some stewardship opportunities the council chose to feature!
